The Six Pillars Smart-Kube

We don't just provide remote consulting: we stand beside your company on the ground, supporting legal & tax setup, supply chain optimization, HR & recruitment, real estate solutions, and access to government incentives. Our consulting model is built on six core pillars that guide every stage of internalization and business expansion: each pillar provides the structure, expertise, and hands-on support companies need to minimize risks, and accelerate growth. What makes Smart-Kube unique is that our six pillars combine strategic consulting with physical presence in Canada and the United States of America. This ensures that your business benefits not only from high-level advisory, but also from real on-the-ground execution. With Smart-Kube, internalization becomes a simplified, structured, and results-oriented process, giving your business the advantage to grow.

I 6 PILASTRI SMART-KUBE

Non offriamo soltanto consulenza da remoto: siamo al fianco della tua azienda sul territorio, supportandoti nell'avvio legale e fiscale, nell'ottimizzazione della supply chain, nella gestione delle risorse umane e del recruiting, nelle soluzioni immobiliari e nell'accesso agli incentivi governativi. Il nostro modello di consulenza si fonda su sei pilastri che guidano ogni fase del processo di internazionalizzazione e di espansione aziendale: ciascun pilastro fornisce la struttura, le competenze e il supporto operativo necessari per ridurre i rischi e accelerare la crescita. Ciò che rende Smart-Kube unica è che i nostri sei pilastri combinano la consulenza strategica con una presenza fisica in Canada e negli Stati Uniti. Questo garantisce che la tua azienda possa beneficiare non solo di una consulenza di alto livello, ma anche di una reale esecuzione operativa sul campo. Con Smart-Kube, l'internazionalizzazione diventa un processo semplificato, strutturato e orientato ai risultati, offrendo alla tua impresa il vantaggio competitivo per crescere
